**FOR IMMEDIATE RELEASE**

**MORE CONSULTING HAS BEEN CERTIFIED by the U.S. SMALL BUSINESS ADMINISTRATION as HUBZONE SMALL BUSINESS CONCERN.**

MORGAN HILL, California, June 9, 2020-The U.S. Small Business Administration has qualified MORE Consulting for eligibility in the HUBZone Program.

“HUBZone is a great opportunity for us to leverage our size and geographic location.” said Michael Orosco, Owner and Chief Engineer for MORE Consulting. “We are constantly striving on bringing value and a competitive edge to our contracting and design partners and HUBZone eligibility will help deliver on set asides and project goals of many government projects.”

MORE Consulting will be listed as qualified to participate in the HUBZone program and will actively bid for HUBZone projects. We welcome all our design partners and contractor teams looking for a qualified electrical design firm to collaborate as a member of a winning team.

**ABOUT HUBZone**

The Historically Underutilized Business Zones (HUBZone) program helps small businesses in urban and rural communities gain preferential access to federal procurement opportunities. These preferences go to small businesses that obtain HUBZone certification in part by employing staff who live in a HUBZone.

**ABOUT MORE CONSULTING:**

MORE Consulting is a true start-up Electrical Engineering Consulting Company focused on the Reliable Critical Power needs of the construction industry. We are a precision company that is agile to emerging customers and project demands looking for an experienced and effective team focused on fast-paced projects. We were founded in 2016 and aspire to fill the gap between design concept and actual constructability.
